Summary

Henderson v. Báez (2019) (\$5,200,000):

- Henderson had superior statistics compared to Báez throughout career. But, Báez's MVP runner-up finish entering arbitration suggests a higher peak than Henderson.

Henderson v. Story (2019) (\$5,000,000):

- Similar power profile to each other with a Silver Slugger award in common. Henderson shows more consistency throughout career.

Henderson v. Correa (2019) (\$5,000,000):

- Both RoYs with similar career numbers. Henderson displayed a higher peak than Correa. But, Correa displayed more consistency entering arbitration compared to Henderson.

Henderson v. Lindor (2019) (\$10,550,000):

- Lindor provided the ceiling for shortstops with three straight top-10 MVP finishes, hardware offensively and defensively, and had superior statistics compared to Henderson.

Verdict:

Based on Henderson's statistics through June 23, 2025, he should be **fairly compensated between \$5-5.3 million.** Henderson showed regression entering arbitration, but has displayed high-level production in his PY-1 and PY-2 years.

Statistical Glossary ([MLB.com](https://www.mlb.com))

Home Run (HR): A batter hits a fair ball and scores on the play without being put out or has the benefit of an error.

Wins Above Replacement (aWAR): Measures a player's value in all facets of the game by deciphering how many more wins he is worth compared to an average replacement at their position. Averaged out from fWAR and bWAR.

Fangraphs WAR (fWAR): Fangraphs's calculation of WAR.

Baseball Reference WAR (bWAR): Baseball Reference's calculation of WAR.

Weighted Runs Created (WRC+): Adjusts to ballpark factors for all MLB players. 100 is league average. 150 would be 50% better than league average.

Batting Average (AVG): Measure's a hitter's success. Dividing the player's hits by number of at-bats.

On-Base-Percentage (OBP): How frequently a batter gets on base per plate appearance.

Slugging (SLG): Represents the total number of bases a player records per at-bat. Excludes walks and hit-by-pitches.

On-Base-Plus-Slugging (OPS): Combines on-base percentage and slugging percentage.

OPS averaged across league (OPS+): OPS adjusted for all ballparks. 100 is league average. 150 would be 50% better than league average.
